Objective

To obtain a challenging role as an IT Support at Accenture Philippines where I can apply my expertise in IT systems, network management, and technical support to enhance the company's operations and infrastructure. I am dedicated to driving innovation, providing reliable solutions, and contributing to organizational success while continuously advancing my professional skills and knowledge in the field of information technology.

Education
Bachelor of Science in Information Technology Phinma Araullo University

IT Support Specialist
Pointwest Technologies, 8741 Paseo de Roxas, Makati City, 1226
January 2022 – December 2023

Honor and Award

- With Honors (Information Technology) – Awarded for achieving consistently high academic performance and demonstrating excellence in key IT areas such as programming, network management, and systems analysis.
- Outstanding IT Graduate Award – Recognized for exceptional proficiency in software development, problem-solving, and the consistent delivery of high-quality academic and practical IT projects.
- Best Capstone Project (IT Department) – Honored for creating an innovative and impactful IT solution that showcased advanced technical skills, creativity, and practical application in real-world scenarios.

Technical Skills:

● Proficient in programming languages including Python, Java, and C++

● Experienced in network administration, including LAN/WAN configuration, VPN setup, and troubleshooting

● Skilled in server management on both Windows Server and Linux systems, with knowledge of cloud infrastructure and services

● Experienced in using IT tools and platforms such as VMware, Microsoft Office Suite, and Active Directory

---

Communication Skills:

- Able to communicate clearly and professionally in both written and verbal formats.
- Skilled in explaining technical information in a simple and understandable way to non-technical users.
- Effective in collaborating with teams, responding to inquiries, and providing customer support.
- Strong active listening skills, ensuring accurate understanding of tasks and concerns.

Leadership:

- Leads and motivates team members to achieve common goals while maintaining high performance
- Demonstrates accountability, initiative, and sound decision-making in challenging situations
- Proficient in organizing tasks, delegating responsibilities, and optimizing workflow efficiency
- Promotes collaboration, supports colleagues, and fosters a positive and productive team environment

Certifications and Training:

- CompTIA A+ Certification – Validates expertise in IT hardware, software, and troubleshooting techniques.
- Cisco Certified Network Associate (CCNA) – Demonstrates proficiency in networking fundamentals, routing, and switching.
- Microsoft Certified: Azure Fundamentals – Knowledgeable in cloud computing concepts and Microsoft Azure solutions.
- IT Support and Troubleshooting Workshop – Completed hands-on training in technical support, system maintenance, and problem-solving.
- Cybersecurity Awareness Training – Trained in network security best practices, data protection, and risk management strategies.

Languages:

● Filipino: Fluent
